

# HSIA Guest Room Cable Management Made Easy

## MiniAccess Point™

### Miniature Ethernet Connection Point for Wired Properties

TeleAdapt's DeskHub® range makes connecting to High Speed Internet Access (HSIA) instantaneous and straightforward. The MiniAccess Point™ creates a recognizable guest access connection point for HSIA. It is visually attractive, guest-friendly and offers powerful branding opportunities for your property.

This simple, effective and affordable DeskHub™ model allows you to place your hotel room's Internet connection point in the most convenient and attractive location for your guests. The MiniAccess Point™ contains a standard RJ45 Ethernet interface in a compact and durable black matte finished shell. The MiniAccess Point™ enhances your guest's experience of connecting their laptop to the existing Internet infrastructure. It helps increase your HSIA amenity "take rates" and creates a positive guest impression.

For optimal security, we recommend installation with TeleAdapt's DeviceSafe™ cable, a specially molded theft-proof RJ45 cable. Other products in the TeleAdapt's DeskHub® range are the Pull-Through Access Point™ (RJ45 cable holder), DeskSpool™ (RJ45 retractable Internet connection point), PowerSpool™ (RJ45 retractable Internet connection point with 120 volt power outlet) and DeskBridge® (Wi-Fi to RJ45 Ethernet Reel connection point).

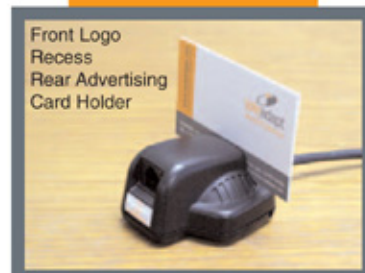

#### Features and Benefits

- Creates a recognizable access point for in-room guest HSIA
- Advertises your HSIA in-room presence - increases your daily internet take rates
- Front logo space and rear card holder for your hotel's instruction card and advertising
- Solves cable management issues by eliminating cable clutter and lost Ethernet cables
- Weighed to stay in position with non-stick rubber feet for desk surface protection

#### TeleAdapt's DeskHub® Line

The TeleAdapt DeskHub® product line consists of wired and wireless solutions, making connecting to existing network infrastructure straightforward, guest-friendly and trouble-free. The DeskHub® line was created to provide recognizable connection points for guest HSIA, offer powerful property branding opportunities, streamline cabling requirements and leave a lasting impression with every guest and customer.
