

HSIA Guest Room Cable Management Made Easy

Power DeskSpool™

Ethernet & Power Cable Place Holder for Wired Properties

TeleAdapt's DeskHub® range makes connecting to High Speed Internet Access (HSIA) instantaneous and straightforward. The Power DeskSpool™ creates a recognizable guest access connection point for both HSIA and power. It is visually attractive, guest-friendly and offers powerful branding opportunities.

The Power DeskSpool™ allows your guests to connect to the Internet and charge their laptop from one convenient location.

This product offers a low-cost solution to organize in-room data and power cable issues. HSIA is supplied through a standard CAT5 Ethernet reel. Power (120 or 240 volts) is supplied via a pull-through grounded power cable terminating in a Cloverleaf/Figure-8 T-plug to ensure compatibility with most laptops.

For optimal security, we recommend installation with TeleAdapt's DeviceSafe™ cable, a specially molded theft-proof RJ45 cable. Other products in the TeleAdapt's DeskHub® range are the MiniAccess Point™ (RJ45 Internet connection point), DeskSpool™ (RJ45 retractable Internet connection point), PowerSpool™ (RJ45 retractable Internet connection point with 120 volt power outlet), Pull-Through Access Point™ (Ethernet cable place holder) and DeskBridge® (Wi-Fi to RJ45 Ethernet reel connection point).

Features and Benefits

- Creates a recognizable access point for in-room guest HSIA and power
- Advertises your HSIA in-room presence - increases your daily internet take rates
- Solves cable management issues by eliminating cable clutter and lost Ethernet cables
- Mounting screws and adhesive double-stick pad options for added security
- Weighed to stay in position with non-stick rubber feet for desk surface protection

TeleAdapt's DeskHub® Line

The TeleAdapt DeskHub® product line consists of wired and wireless solutions, making connecting to existing network infrastructure straightforward, guest-friendly and trouble-free. The DeskHub® line was created to provide recognizable connection points for guest HSIA, offer powerful property branding opportunities, streamline cabling requirements and leave a lasting impression with every guest and customer.
