LaunchPort Rugged System

Purpose built rugged case and wireless charging system for iPads that work in the toughest environments.

LaunchPort Rugged System

Millions of businesses use and depend on iPad every day to get work done. However, not all work is the same and some jobs require that iPad adapt to challenging environments.

The LaunchPort Rugged System is the world's first and only wireless rugged charging solution for iPad specifically engineered to help iPad meet the demands of today's most demanding jobs.

Protected and accessible power button

Densely cushioned bumpers absorb shock to all four corners and face of iPad

Easy access to the home button and speakers

HEIGHT DROPPED

48in.

TIMES DROPPED

26

DAMAGES SUSTAINED

0

iPort Enterprise supports our heroes and this is why a percentage of all LaunchPort Rugged System sales will be donated to the National Fallen Firefighters Foundation. Visit us at www.iportenterprise.com to learn more.

Access to rear camera via protected lens and microphone functions

Magnetic docking for wireless charging

Reinforced top and bottom provide additional rigidity and protection for the back of iPad

Integrated holder for Apple Pencil

The LaunchPort Rugged System consists of 4 components:

LaunchPort Sleeve, LaunchPort Rugged Case, LaunchPort WallStation, and Universal Mount Box.

The Sleeve

The LaunchPort sleeve is the first layer of defense. The sleeve encases iPad in a rigid shell that uses inductive charging to wirelessly charge iPad upon contact with the LaunchPort WallStation. Magnets located in the sleeve reliably hold the sleeve in place to ensure solid and secure contact with the LaunchPort WallStation.

The Case

The LaunchPort Rugged Case serves as the second layer of defense wrapping tightly around the LaunchPort sleeve. The case provides rigorous protection against drops and falls fully meeting MIL Spec certification. Access to all of iPad's functions is paramount, and the rugged case makes available all the features needed to get work done.

The Base

The combined LaunchPort sleeve and LaunchPort Rugged Case magnetically hold to the LaunchPort WallStation, and instantly begin wirelessly charging iPad. The LaunchPort WallStation's inductive charging technology charges iPad at the same rate as an Apple wired power adapter.

The optional Universal Mounting Box allows the LaunchPort Rugged System to be installed in any vehicle using a VESA pattern arm mount, and is powered by a standard 15V DC 2A FUSE.

AP.5 LaunchPort Sleeve

for iPad Air 2, 1, and Pro 9.7"

Available in: Black 70300 and White 70301

Dimensions (WxHxD): 6.42" x 10.10" x 0.84"
(174mm x 257mm x 21mm)

Weight: 0.60 lbs

Power: Input 15V 2A, Output 5.2V 2.4A

LaunchPort Rugged Case 72000

for iPad Air 2, 1, and Pro 9.7"

Dimensions (WxHxD): 7.4" x 11.7" x 1.2"
(190mm x 298mm x 32mm)

Weight: .72 lbs

LaunchPort WallStation

Dimensions (WxHxD): 4.9" x 4.9" x 1.4"
(145.5mm x 145.5mm x 36mm) Off Wall Depth: 0.41" (10.4mm)

Available in: Black 70170 and White 70142

Weight: .61 lbs

Power: Input 110-240V AC, Output 15V 2A

Universal Mount Box

VESA MIS-D 100/75 compatible

Dimensions (WxHxD): 4.8" x 4.8" x 1.8"
(124mm x 124mm x 47mm)

Available in: Black 70348 and White 70349

Weight: .41 lbs
