# Controlling Bandwidth & Data Usage

## *Nomadix Internet Access Gateways*

The solution includes a Nomadix gateway and **McLaren's fluide** web portal controlling bandwidth management, data usage, access times and all aspects of the user's internet experience.

# Controlling Bandwidth & Data Usage

## *Nomadix Internet Access Gateways*

AG2500

- Mid-range bandwidth management gateway
- For small to medium sized venues
- Up to 500 device users
- Fast authentication and secure access control
- Flexible billing options and seamless integration
- Bandwidth management

# Controlling Bandwidth & Data Usage

## *Nomadix Internet Access Gateways*

AG5900

- High performance, scalable access
- Offers high user count and great throughput speed
- Bandwidth conservation and management
- Accommodated evolving usage patterns
- Advanced security for network protection

## ALLOC8

- Gain visibility; understand and control traffic on your hotel's network by prioritizing applications
- Troubleshoot and resolve end-user connection problems faster
- Facilitate proactive network management through easy-to-read graphs and alerts
- Maximize ROI — control overall network costs, mitigate rebates and ensure return visits
- Prevent network failure
- Meet or exceed service level agreements (SLAs) and brand standards
- Minimize DMCA violations by limiting or blocking peer-to-peer (P2P) usage

# Data Collection

Collect usable  
marketing  
data in return  
for free  
internet  
access

## PMS Loyalty Configuration

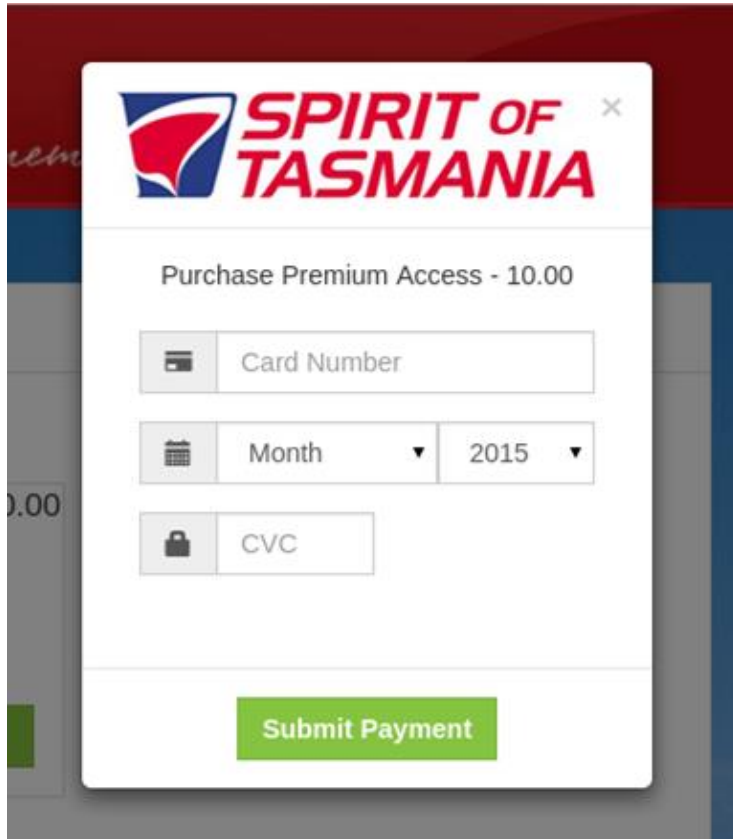

The screenshot displays the McLaren Fluidex PMS Loyalty Configuration interface. The browser address bar shows the URL `104.196.101.81/HSM/HSM_LoyaltyConfig.php`. The interface includes a sidebar menu with options: ACCOUNTS, ANALYTICS, SELF-SERVICE, CONFERENCE, FORWARD PURCHASING, HOTSPOT, INROOM, Add Plan, Edit Plans, MANAGEMENT, and LOGOUT. The main content area is titled "Loyalty Configuration" and features a "Home" link. Below this is a table with three columns: "Loyalty Code", "Loyalty String", and "Delete". The table contains three rows of data:

Loyalty Code	Loyalty String	Delete
BASIC	Priority Club	<a href="#">X</a>
GOLD	Gold	<a href="#">X</a>
TEST	test	<a href="#">X</a>

Below the table are buttons for "Save" and "Upload CSV File". A yellow warning message states: "Warning: CSV Upload instantly overwrites existing database". The footer of the interface shows "© McLaren Technologies 2014" and a "Back to top" link. The Windows taskbar at the bottom indicates the time is 9:54 AM on 4/04/2017.

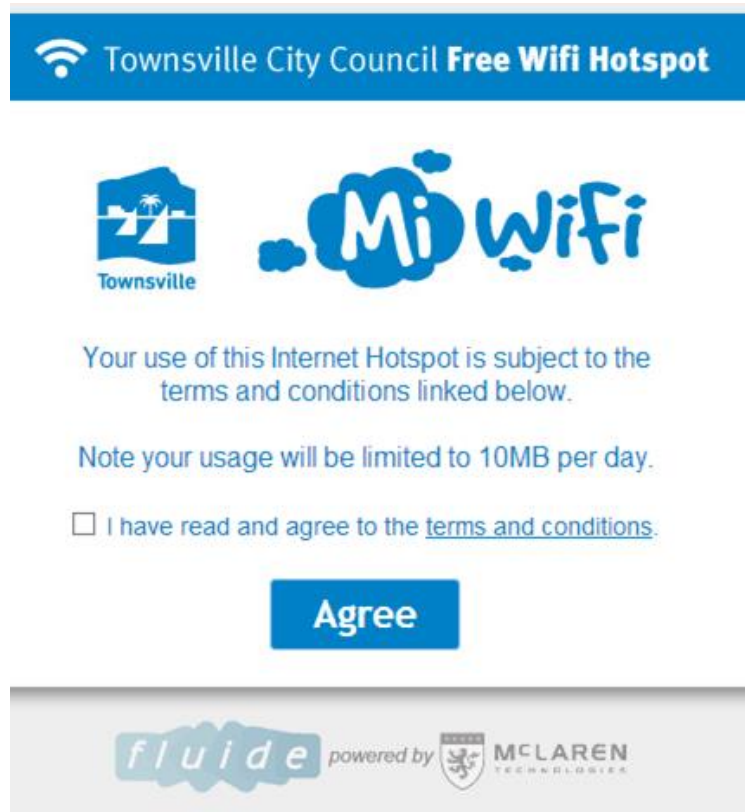

# Flexibility

## Billing options

A screenshot of a credit card payment form for Spirit of Tasmania. The form is titled "SPIRIT OF TASMANIA" with a logo. Below the title, it says "Purchase Premium Access - 10.00". The form contains three input fields: "Card Number" with a card icon, "Month" and "2015" with a calendar icon, and "CVC" with a lock icon. A green "Submit Payment" button is at the bottom.

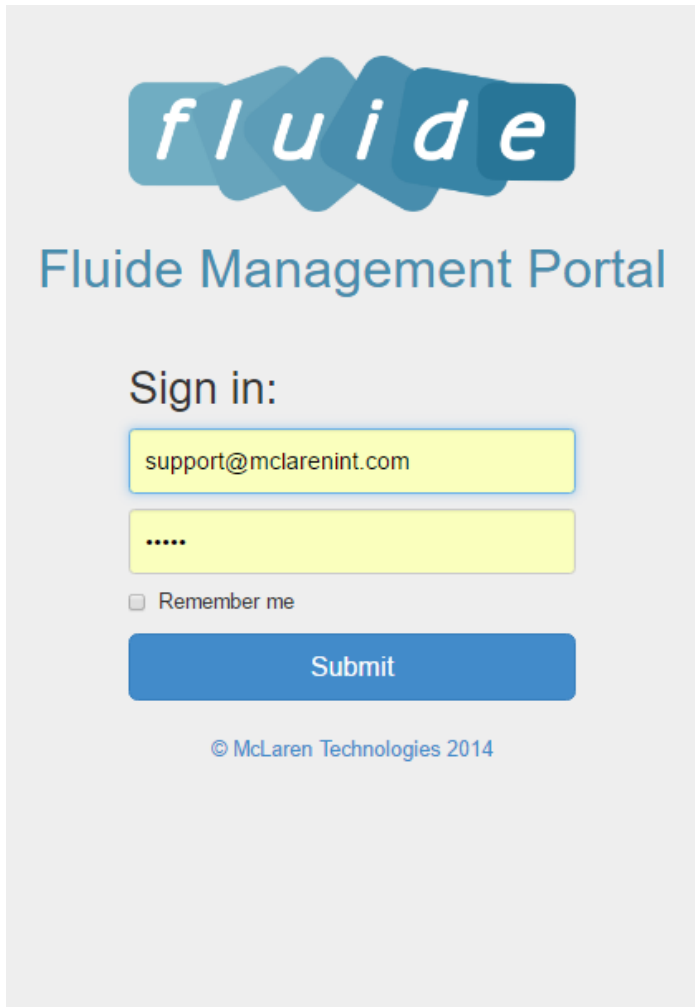

Bill to credit card

A screenshot of a free Wi-Fi hotspot login page. The header is a blue bar with a Wi-Fi icon and the text "Townsville City Council Free Wifi Hotspot". Below the header, there are two logos: "Townsville" and "Mi Wifi". The text says "Your use of this Internet Hotspot is subject to the terms and conditions linked below." and "Note your usage will be limited to 10MB per day." There is a checkbox with the text "I have read and agree to the [terms and conditions](#)." and a blue "Agree" button. At the bottom, there is a footer with the "fluide" logo, "powered by", and the McLaren Technologies logo.

Free click through

The screenshot shows the Fluid Management Portal login interface. At the top is the 'fluide' logo in a blue, blocky font. Below it is the text 'Fluide Management Portal'. The 'Sign in:' section contains two yellow input fields: the first contains the email 'support@mclarenint.com' and the second contains five dots for a password. Below the password field is a checkbox labeled 'Remember me'. A blue 'Submit' button is positioned below the inputs. At the bottom, the copyright notice '© McLaren Technologies 2014' is displayed.

- The **fluide** platform includes a web-based Management and Reporting Platform to provide comprehensive graphical and numerical data analysis across multiple locations
- Management will receive amazing analytics and reporting across visitor online patterns and behaviours within your network .

# Permanent Device Module

- This module allows for devices without a browser to get access to the Internet.
- Typical applications are EFTPOS machines, routers, Video Conferencing equipment etc.
- The device gets added by MAC address. It can be linked to an existing conference (via predictive search box).
- If linked to a conference, it will have automatic access only during the conference session times.
- If not linked to a conference, a timeslot is configured manually via the Start Time and End Time selectors.
- For multi-site operators, the Property is selected.
- In all cases the device will have data and bandwidth limits configured individually through the selectors.
- End Time can be left empty to create a device that never expires.

## Permanent Devices
