

Give Your Guests the Remote

Casting

Overview

INTELITY's Casting solution gives your guests control over their in-room entertainment options. Delivered through Google Chromecast, Casting allows guests to stream content directly to the room's television from their own devices or INTELITY's In-Room Tablets.

Benefits

For Your Guests

- *Cast Shows & Movies Directly to TV*
- *Cast Music & Audio Content through TV Speakers*
- *Cast from In-Room Tablet or Any Mobile Device*
- *No Additional Logins Required*

For Your Staff

- *Give Guests Control of Content*
- *Cancel Expensive Cable Subscriptions*
- *Remote Device Troubleshooting*
- *Part of an Omnichannel Marketing Platform*

A Flexible Solution

Casting works with any HDMI-compatible television, and can be configured to run through a wired Ethernet connection or through a dedicated WiFi network. INTELITY supplies pre-programmed Google Chromecast devices with security brackets, and our implementation experts provide on-site network setup, installation, and testing to ensure successful integration.

Enable Limitless Content

Casting works with all Google Chromecast enabled apps.
