

The Ultimate Guest Self-Service Tool

In-Room Tablets

Touchless Service Requests

Digital F&B Menus, and Ordering

Access Hotel and Local Information

Easy to Maintain, Easy to Clean

Real-Time Content Changes via CMS

Overview

Automate guest services and enable touchless communication between guests and staff. A digital replacement for expensive and difficult to clean print compendiums and collateral, hotel tablets offer guests contactless access to services, amenities, dining, and more.

Guest Benefits

- Access hotel and local information
- Streamline touchless service requests
- Make dining reservations and book amenities
- In-Room Dining with contactless delivery
- Explore digital menus
- Control room lighting, temperature, and more

A Fully Integrated Guest Experience

The INTELITY platform supports native integrations with over 150 PMS, POS, CRM, room controls, and ticketing solutions, making it easy to incorporate tablet features and functionality directly within your existing technology stack.

8-inch Lenovo Smart Tab

10-inch Lenovo Smart Tab

Apple iPad

Staff Benefits

- Reduce face-to-face interaction between staff and guests
- Easy to maintain and easy to clean
- Make rapid, real-time content changes via CMS
- High-impact visual promotions
- Create new or increase incremental revenue streams
- Remotely monitor and troubleshoot devices via MDM
