

The Ultimate Guest Self-Service Tool

# Smart-Room Tablets

Give guests complete control over their stay with INTELITY's smart-room tablets. INTELITY's smart-room tablets replace the printed compendiums and alarm clocks of the past with 24/7, on-demand digital access to information that modern travelers expect. Through smart-room tablets, guests can communicate directly with hotel staff, place in-room dining orders, make reservations on-site and off property, submit service requests, control room environment, and much more.

## Guest Benefits

- Access hotel and local information
- Place service requests digitally
- Make dining reservations and book amenities
- Order in-room dining with contactless delivery options
- Explore digital food and beverage menus
- Access in-room controls

## Staff Benefits

- Make rapid, real-time content changes
- Send important messages directly to guests
- Leverage high-impact visual content
- Create incremental revenue streams
- Clean and maintain with ease
- Remotely monitor, troubleshoot, and update devices
